Transparent Payson is not a newspaper. It is a collection of articles with an extreme bias and not many facts. It is run by a few people who are trying to undermine the political process and wield power. If you don't like the reporting of the Payson Roundup just talk to the members of the town council. They always give an honest, factual answer. Always go to the source if possible.

Correct ... information itself is neutral and always a good thing to have, it's the opinions and commentary on that information that has bias and needs to be filtered out by the reader ...

I am so glad that you put this on here because I like how the only sources that this post is posting for all the newcomers. Is there beliefs and their feelings about the town. They're not

posting everything and I hope that the newcomers are smart enough to look at both sides and realize that there's one group. One small group that now is trying to recruit people so they can be bigger that just wants to bring this town down and stop it from growing. Stop it from doing good things.

**@Meria** the "local" paper isn't so local. Several years

ago, during the recession the Roundup was going down. The real estate market and most other businesses weren't able to advertise due to the recession. Businesses were closing right and left. Someone from the city bought it out and have run it as a left-wing publication ever since. Of course the other two papers couldn't stay afloat. We do have one good one now that is an online publication and they report things happening that wouldn't be reported otherwise. It's The Payson News.

They are in business to make money and pay their employees a wage; pay press operators, pay for ink and paper, delivery drivers, etc. I have paid for the Roundup for years. In fact, I have never not had a paid newspaper subscription. Trib, Sun Times, Chicago Daily News, Phx Gazette, AZ Republic, etc. Even the old Scottsdale paper back in the 70's.

Newspapers (especially small ones) are really struggling because of internet content availability. If it wasn't for the legal notices, they'd probably be history by now.

Rebecca,

You are correct, TransparentPayson is not a newspaper. Never has been. We are a 527 Political Action Committee. I can appreciate you think we are "trying to undermine the political process and wield power." Nothing is further from the truth.

We advocated and were successful in passing two voter-supported propositions as allowed under the Arizona Constitution, and the Town of Payson. The process we used was further codified by the passage of Proposition 105 in 1988.

Currently, we have brought a suit against the Town for the purported repeal of the Propositions. That suit also addresses the use of an "emergency ordinance" by the Town to do so.

I am perplexed how you can state we are undermining the political process when we are supporting and advocating greater input by the voters on issues that face the Town. If the citizens approve funding for any project, or lease of land for any project, that strengthens the political process.

You can learn more here:

(<http://transparentpayson.org/updates/the-town-of-payson-provided-an-answer-with-a-twist/>)

Are we subversive? We discuss that here:

**Isaac Blake**

Good morning,

We are happy to help. You will not find our information with the Federal Election Commission (FEC) as we are not a federal group. We are subject to the requirements of the IRS as a 527 group. As this is a local issue, we are formed at the local level. That is done through the Town of Payson. Likewise county issues and groups are formed at the county level, and state issues and groups are formed at the state level.

The information is readily available, and not "well hidden" as you suggest. Various reports are filed and made public with the Town. As it seems you are struggling to find the information, please follow this link:

Isaac B.

I don't fully understand the question. I apologize for the length of this response, but it may clear some things up for you.

Our statements are not misleading at all. We are a

By way of example, after the April 12th, 2023 Board meeting, every citizen who spoke against the purported repeal was labeled as "Transparent Payson." Only one was a member. I suspect the rest were supporters, but not members.

After the repeal, a recall drive was started. That was again attributed to Transparent Payson. We have no involvement with the recall efforts. See here for further:

<http://transparentpayson.org/get-involved/does-transparent-payson-support-the-recall-efforts/>  
(<http://transparentpayson.org/get-involved/does-transparent-payson-support-the-recall-efforts/>)

Above, Rebecca Fillerup seems to imply we are a newspaper. We are not. We have a website and a presence on social media. We do not publish "articles." We refer to sources on our website and encourage people to do their own research. Rebecca may be referring to "The Payson News."  
(<http://savepaysonaz.com/>  
(<http://savepaysonaz.com/>)) We do receive press from that group, but again it is not "Transparent Payson."

Also above, Candy Staub maintains "One small group that now is trying to recruit people so they can be bigger that just wants to bring this town down and stop it from growing. " We do not recruit, and if the citizens want government-funded growth, such as a recreation center or other, and it passes via a general election, we fully support it.

In some respects, it is flattering that Transparent Payson is credited. I suspect it is because we have been successful in our efforts. I am hopeful we will again prevail.

Ultimately we are a voters' rights group. That is we believe the power of government flows from the people. The phrase "consent of the governed" best demonstrates the principle. If that authority flows from Divine right, sovereign man, or from the foundation of a democratic system, it is an undeniable right of a citizen. That is not a radical thought. We outlined that thought in 2018. Here it is:

<http://transparentpayson.org/updates/voting/>

We encourage more citizen involvement as allowed by Proposition 401 and 402.

I do hope that has answered your question.

Thank you for the reply. I cited no wiki information. It appears you may have attributed someone else's post to me.

I am again uncertain as to your question. I do appreciate the information that was copied and pasted.

I think what you are getting at is Transparent Payson a PAC? The answer is yes. The associated documents are are file with the Town, a link was previously provided. I believe we are in full compliance. If you suspect otherwise a call to the Town Clerk may be in order.

The text of the voter approved Propositions provides the authority for Transparent Payson to defend the Propositions. The TOP has asserted that we have no standing, they then file a counter claim against us that would appear to negate that argument. I suspect that question will be resolved by the Court and not on this discussion forum.

All domain names I control are shielded. They tend to generate a significant amount of junk mail if not. Nothing subversive or hidden.

On the question of Board Members, all fillings are with the TOP. They are free to identify themselves, I

will not as this appears to be a lightning rod issue and may subject them to unnecessary attention.

Again, I do hope that has answered your questions.

You had posted information from ARS 16-905D and E. Reading a little further into Title 16 - Elections and Electors would have brought you to the "legal justification for asking and posting their personal information."

ARS 16-926. Campaign finance reports require:

2. Total receipts during the reporting period, including:

\* \* \*

(a) An itemized list of receipts in the following categories, including the source, amount and date of receipt, together with the total of all receipts in each category:

\* \* \*

(i) Contributions from in-state individuals whose contributions exceed \$100 for that election cycle, including identification of the contributor's occupation and employer. Notwithstanding section 16-901, paragraph 29, subdivision (a), a person whose residential address is protected from public disclosure pursuant to section 16-153 is not required to disclose the person's residential address and shall instead provide an alternate mailing address.

We don't make the rules.

Currently, no donors have listed their occupation as a protected class. If they are retired and a protected class, they would have to notify us. Should that occur, we will address it at that time.

Thank you for the civil discussion, feel free to ask questions as they come up.
